

# POORNENDRA PAROUHA

## Full Stack Developer

🏠 Indore, Madhya Pradesh 📞 9644841393 ✉️ [poornendraparouha@gmail.com](mailto:poornendraparouha@gmail.com) [in LinkedIn](#) [GitHub](#)

## Profile Summary

**Full-Stack Developer** with a strong foundation in front-end and back-end technologies, passionate about building scalable and efficient web applications. Proficient in HTML, CSS, JavaScript, React, and Node.js, with hands-on experience in databases like MongoDB and Firebase. Skilled in problem-solving with a keen interest in AWS and GCP. Seeking opportunities to contribute to dynamic teams while expanding full-stack expertise.

## Projects

**MERN Stack Authentication App** | [GitHub](#) | *React, Redux, Axios, Node.js, Express.js, MongoDB, JWT, bcrypt*,

- Developed a full-stack authentication app using React for the frontend and Express.js for the backend.
- Integrated JWT-based authentication for user session management.
- Implemented user sign-up, sign-in, and protected routes using React Router and Axios for HTTP requests.
- Designed a responsive UI with Bootstrap, incorporating React Toastify for real-time notifications.
- Utilized MongoDB Atlas for cloud database storage and bcrypt for password hashing.
- Built a REST API to handle user authentication, with token validation middleware for secured access.

**Utility App - Todo/Notes** | [GitHub](#) | *React, Node.js, Express.js, MongoDB, CSS*

- Developed a full-featured utility app enabling users to manage their tasks and notes efficiently.
- Implemented CRUD functionality for both Todos and Notes using React on the frontend and Node.js/Express on the backend.
- Integrated features such as adding, editing, and deleting tasks/notes, with task status filtering (completed or pending).
- Used the React Context API for global state management, ensuring smooth and efficient user interactions.

**Busy Buy - E-commerce Web App** | [GitHub](#) | *React, Redux Toolkit, Firebase, Firestore, HTML, CSS, JavaScript*

- Developed a responsive e-commerce app that allows users to sign up, sign in, browse products, and make purchases.
- Integrated shopping cart functionality with product filtering, order history tracking, and user authentication.
- Utilized Redux Toolkit for efficient state management across the application.
- Integrated Firebase for authentication and Firestore database for storing user, cart, and order information.
- Built a user-friendly interface with React and custom CSS for smooth navigation and product interaction.

**Polling System API** | [GitHub](#) | *Node.js, Express.js, MongoDB*

- Designed and developed a RESTful API that allows users to create polls with multiple options and cast votes without authentication.
- Implemented functionality to create, delete, and manage questions and options, with restrictions based on voting activity.
- Added features to view questions with options and the total votes cast.
- Created robust routes for poll creation, option management, and vote tracking, ensuring flexibility in poll management.

## Technical Skills

**Programming Languages:** HTML, CSS, JavaScript, Python

**Databases:** MongoDB, Firebase,

**Developer Tools:** VS Code, Git, Postman

**Libraries/Frameworks:** React, Redux, Node.js, Express, Bootstrap

**Additional Skills:** Github and version Control

**Soft Skills:** Communication, teamwork

## Education

**Rajiv Gandhi Proudhyogiki Vishwavidyalaya**

*B.pharma*

**2015 – 2019**

*Indore, Madhya Pradesh*

## Experience

**Pharmaceutical Marketing**

*Professional Sales Executive*

**2019 – 2023**

*Indore, Madhya Pradesh*

## Training and Certifications

**Coding Ninjas**

*Full Stack Web Development*

**2023 – 2024**

- [React - Certificate of Excellence](#) | [Front End - Certificate of Excellence](#)
- [Back End - Certificate of Completion](#) | [Python - Certificate of Completion](#)
